Ten-Year Total										44,586,136

*Cargo Service Airport - An airport that is served by all-cargo aircraft in scheduled and nonscheduled service providing air transportation of only property, including mail, with an aggregate landed weight in excess of 100 million pounds. This entitles the airport to AIP cargo entitlement funds. However, the State of California has expanded this report to include airports that do not meet the FAA criteria for a Cargo Service Airport designation. Each is designated with a double asterisk following the airport name. The list will include other airports as they are identified. With the cooperation of the respective facility management, a reporting schedule will be initiated and maintained by the Caltrans Division of Aeronautics.

Total of Peak-Year Annual Totals 5,474,464.3
